A PLACE TO DISCOVER

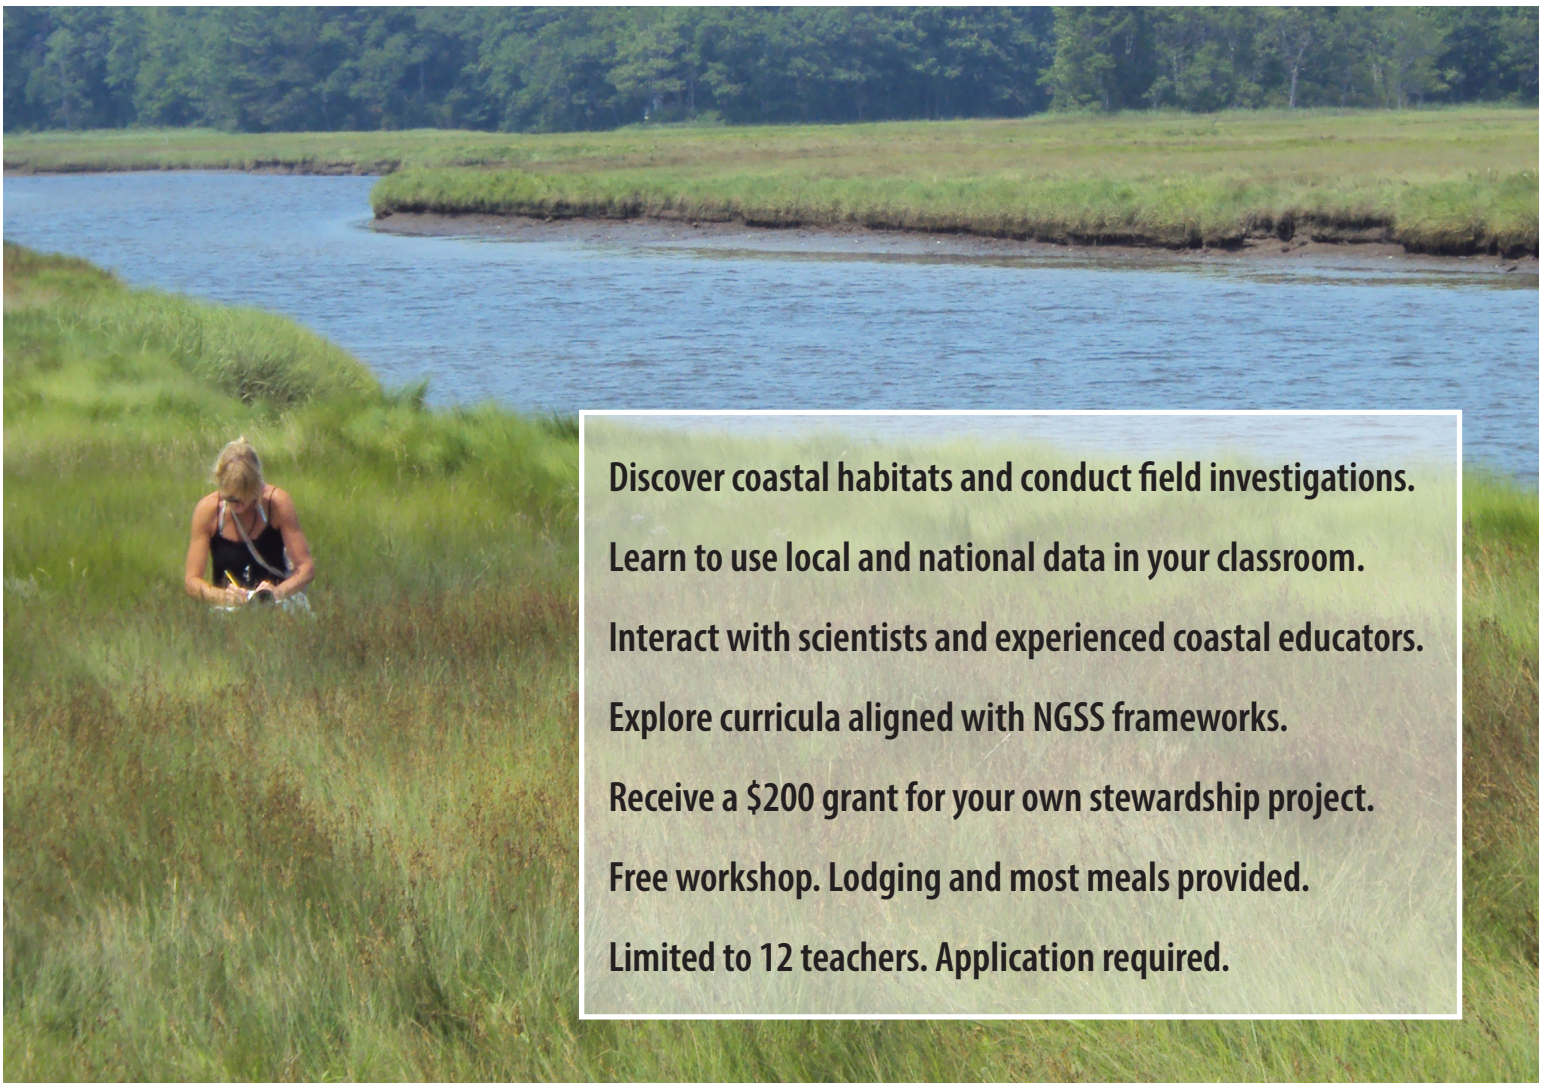

# estuaries, watersheds & climate

*A Field-based Workshop for Middle and High School Teachers*

July 11–14, 2016 • Wells National Estuarine Research Reserve, Maine

FMI: [wellsreserve.org/tote](http://wellsreserve.org/tote) or 207-646-1555 ext 116

- Discover coastal habitats and conduct field investigations.**
- Learn to use local and national data in your classroom.**
- Interact with scientists and experienced coastal educators.**
- Explore curricula aligned with NGSS frameworks.**
- Receive a \$200 grant for your own stewardship project.**
- Free workshop. Lodging and most meals provided.**
- Limited to 12 teachers. Application required.**

This work is sponsored by the National Estuarine Research Reserve System Science Collaborative, which supports collaborative research that addresses coastal management problems important to the reserves. The Science Collaborative is funded by the National Oceanic and Atmospheric Administration and managed by the University of Michigan Water Center.
